Words from our CEO

This summer we have been extremely focused on improving our services and performance to better fulfill our mission. We have been working in collaboration with both local and state health agencies. Not only did they provide us with sound advice and suggestions but with guidance on the identification of opportunities where we can improve our processes and operations.

EHS Celebrates its 4th Anniversary

We were delighted to celebrate our 4th anniversary on Friday, August 23, 2019. Since we opened our doors in August 2015, we have been working hard every day to expand our services and to improve the quality of the care we provide. Thanks to the commitment and hard work of our employees and the support we have received from the communities where we operate, we have been able to meet these goals.

New Cath Lab Brings Cutting Edge Cardiac Care to Cleveland Residents

Texas Emergency Hospital counts now with a new state-of-the-art Cath Lab, in which board-certified healthcare professionals can treat and diagnose heart-related conditions quickly and effectively. Previously, residents around Cleveland had to travel 30 to 40 minutes or further to receive about any type of cardiac catheterization procedure.

LifeVest is a Life-Saver for a County Resident

ZOLL LifeVest is a battery-powered wearable defibrillator built into a lightweight vest for patients at risk for sudden cardiac arrest. The device continuously monitors the patient’s heart rhythm, and when it detects life-threatening rhythm, it quickly releases blue gel lubricant and then issues an electric shock to get the heart rhythm back on track. Learn how this device has helped save the life of a resident of our County.

COMMUNITY ENGAGEMENT

Summer Camp for EHS Employees’ Children

EHS employees organized through the employee engagement committee to raise funds throughout the month of May to send four children from our staff to the AIM team camp located in Cleveland. The children had the opportunity to participate in initiatives on a safe and positive team environment. We are so proud of our employees!
