

COVID-19 COMMUNITY VACCINE UPDATE

January 18, 2021

Emergency Hospital Systems is excited to announce that the Texas Department of State Health Services, has selected EHS Texas Emergency Hospital as a Vaccination Hub!

It is expected that we will receive our first shipment within the next few days, at which time we will begin the process of scheduling individuals to receive their Covid-19 vaccination.

EHS Texas Emergency Hospital will prioritize the administration of vaccinations to individuals that are eligible under the Phase 1A and 1B guidelines.

Phase 1A:

- Frontline healthcare workers and residents at long-term care facilities, plus people over 65 or with a chronic medical condition that puts them at increased risk for severe illness from Covid-19.

Phase 1B:

- People 65 years of age and older.
- People 16 years of age and older with a least one chronic medical condition that puts them at increased risk for severe illness from the virus that causes Covid-19, such as but not limited to:
 - Cancer
 - Chronic kidney disease
 - COPD (chronic obstructive pulmonary disease)
 - Heart conditions, such as heart failure, coronary artery disease or cardiomyopathies
 - Solid organ transplantation
 - Obesity and sever obesity (body mass index of 30 kg/m² or higher)
 - Pregnancy
 - Sickle cell disease
 - Type 2 diabetes mellitus

Please continue to check our website daily at www.emergencyhospitals.care for more information to register for the Covid-19 vaccination. Currently there are no pre-scheduled appointments for the COVID-19 vaccines.

With the recent uptick of positive COVID-19 cases in our community, we continue to encourage everyone to wear a face covering, practice social distancing and proper hand hygiene.

Thank you for your continued support for Emergency Hospital Systems! We look forward to providing our community with the Covid-19 vaccine!
